SUBMISSION OF CORRECTED SEQUENCE LISTING AND AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Applicant has reviewed the Sequence Listing as filed in the above-identified application and has noted a typographical error in SEQ ID NO. 43. Specifically, as described in the specification at page 92, line 32 to page 93, line 15, nucleic acids 1-4045 of SEQ ID NO: 43 are derived from pTnMOD, included in the specification as SEQ ID NO: 1, rather than pTnMCS. Applicant has prepared and electronically submits a substitute Sequence Listing correcting the typographical error found in SEQ. ID NO: 43. The .txt file satisfies the requirement for both a Computer Readable and a Paper Form of the Sequence Listing.

Applicant certifies that the enclosed substitute Sequence Listing does not include matter which goes beyond the disclosure of U.S. Patent Application Serial No. 10/609,019 filed June 26, 2003.

I hereby certify that this communication is being electronically filed with the United States Patent and Trademark Office via EFS-Web on June 6, 2008.

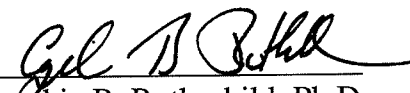

Cynthia B. Rothschild, Ph.D. – Reg. No. 47,040

IN THE SPECIFICATION

In the original application, please remove the sequence listing originally filed on June 26, 2003, and insert the enclosed Sequence Listing .txt file after the drawings.

Respectfully submitted,

Date: June 6, 2008
